Intelligent Technologies and Services, Inc  
1031 Serpentine Lane, Suite 101  
Pleasanton, CA 94566

Subject: E-LOAN Data Center Project  
Pleasanton, CA

To Whom It May Concern:

We recently partnered with Intelligent Technologies and Services to provide a new fire suppression system and emergency power shutdown management system for E-LOAN's main Server Room in Pleasanton, CA. Intelligent Technologies and Services involvement started from the initial design meetings with the owner, architect and the fire department and ended with a successfully completed project and fully satisfied client.

We appreciate the expertise in the "data center" arena that Intelligent Technologies and Services brings to the table and we look forward to working with Intelligent Technologies and Services on future fire suppression system projects.

Sincerely,

Brett Scolari  
Project Manager  
Permian Builders, Inc.
